Socialist Worker Rally

Malcolm X and the fight against racism

Speaker: leading black socialist Gary McFarlane (London SWP)

Tuesday March 16, 8.00pm, Ormond Hotel, Ormond Quay

THERE is intense interest today in the life of Malcolm X.

The continuing existence of racism means that Malcolm's ideas of militant resistance are as relevant today as in the 1960s.

But the ideas of Malcolm X are also a subject of controversy. Why did he re-assess many of his previous views in the last year of his life?

Did he moderate his beliefs?

Or did he remain a revolutionary who was looking for a more effective way of fighting racism?

Come along and hear Gary McFarlane, a leading black socialist from the London, speak on the relevance of Malcolm X and the fight against racism today.
